CAPSTONE
1 Full Go-To-Market Campaign

PROGRAMME GOAL

Turn absolute beginners into job-ready digital marketers capable of planning, executing, and measuring full-funnel campaigns across content, social, SEO, paid ads, email, and AI-assisted marketing tools, culminating in a complete go-to-market campaign portfolio piece.

OVERVIEW

An intensive 8-week professional certificate covering the entire modern digital marketing stack: positioning and audience research, content and copywriting, social media strategy and short-form video, SEO, paid advertising (Meta, Google, TikTok), email marketing and funnels, landing pages and conversion optimization, influencer and community marketing, analytics and attribution, AI marketing tools, and the business of freelancing or running an agency. Students finish with a live portfolio of campaigns and a capstone go-to-market strategy.

No 82, Century Bus Stop, Ago Palace Way, Okota, Lagos · +234 913 869 1147

Course Outline

1. **Week 1:** Marketing Fundamentals, Positioning & Audience Research
2. **Week 2:** Content Marketing & Copywriting
3. **Week 3:** Social Media Strategy & Short-Form Video
4. **Week 4:** Search Engine Optimization (SEO)
5. **Week 5:** Paid Advertising: Meta, Google & TikTok Ads
6. **Week 6:** Email Marketing, Funnels, Landing Pages & CRO
7. **Week 7:** Influencer & Community Marketing, Analytics, Attribution & AI Tools
8. **Week 8:** Agency Business, Freelancing & Capstone Go-To-Market Campaign

Marketing Fundamentals, Positioning & Audience Research

Establish the strategic foundation of digital marketing: how markets work, how to position a brand, and how to deeply understand the people you are marketing to.

LEARNING OBJECTIVES

- Explain the core principles of modern digital marketing and the full-funnel model
- Build a clear brand positioning statement and value proposition
- Develop a rigorous ideal customer profile (ICP) and buyer personas
- Map the customer journey from awareness to advocacy
- Audit competitors and identify market gaps

DETAILED TOPIC BREAKDOWN

1.1 Foundations of Digital Marketing

What digital marketing is and how it differs from traditional marketing

The marketing funnel: awareness, consideration, conversion, retention, advocacy

AIDA and See-Think-Do-Care frameworks

Inbound vs outbound marketing

Owned, earned, and paid media explained

The modern marketing channel landscape in 2026

How marketing, sales, and product fit together

Key marketing terminology: CAC, LTV, CTR, CPC, CPM, ROAS, conversion rate

Overview of a full digital marketing career path

Ethics and compliance basics (data privacy, GDPR, CAN-SPAM)

1.2 Brand Positioning & Value Proposition

What positioning means and why it drives every marketing decision

Category design and competitive frames of reference

Writing a positioning statement (for X, who Y, our product is Z, unlike A, we B)

Value proposition canvas: pains, gains, and jobs to be done

Differentiation strategies: price, quality, convenience, experience, niche

Brand voice, tone, and personality definition

Messaging hierarchy: core message, pillars, proof points

Positioning workshops and stress-testing with real examples

1.3 Audience Research & Ideal Customer Profiles

Quantitative vs qualitative audience research methods

Building an Ideal Customer Profile (ICP) with firmographics and psychographics

Creating detailed buyer personas with goals, objections, and triggers

Customer interview scripts and how to run discovery calls

Survey design with Google Forms and Typeform

Social listening for audience insight (Reddit, forums, comment sections)

Using AnswerThePublic and keyword tools for pain-point discovery

Segmenting audiences by behavior, demographics, and intent

1.4 Customer Journey Mapping

Stages of the customer journey and touchpoint identification

Mapping channels to each funnel stage

Micro-moments and intent signals

Content needs at each journey stage

Identifying friction points and drop-off risks

Journey mapping tools and templates

Connecting journey maps to KPIs

1.5 Competitive & Market Analysis

How to run a competitor audit across website, social, ads, and content

SWOT analysis applied to marketing strategy

Using SimilarWeb, SEMrush, and Meta Ads Library for competitor research

Identifying market whitespace and underserved segments

Benchmarking pricing, messaging, and channel presence

Building a competitive positioning map

HANDS-ON EXERCISES

- Write a one-paragraph positioning statement for a fictional product
- Build a full buyer persona document with goals and objections
- Conduct 3 mock customer discovery interviews and summarize insights
- Map a full customer journey for an e-commerce brand

ASSIGNMENTS

- Deliver a complete ICP and 2 buyer personas for your capstone business idea
- Submit a competitive audit of 3 direct competitors with a positioning map

PROJECTS

- Brand Positioning & ICP Report for a chosen niche business

WEEKLY LEARNING OUTCOMES

- Can articulate clear brand positioning and value propositions
- Can build data-backed ideal customer profiles and personas
- Understands the full marketing funnel and customer journey
- Can perform structured competitive research

WEEKLY ASSESSMENT

Graded positioning and ICP report reviewed against a rubric covering clarity, evidence, and strategic depth

Content Marketing & Copywriting

Master the craft of writing and producing content that attracts, persuades, and converts across blogs, ads, emails, and social captions.

LEARNING OBJECTIVES

- Build a content strategy aligned to funnel stages and business goals
- Write persuasive copy using proven frameworks
- Produce a repeatable content calendar and workflow
- Apply storytelling techniques to brand content
- Repurpose one piece of content across multiple formats

DETAILED TOPIC BREAKDOWN

2.1 Content Strategy Fundamentals

- Content pillars and topic clusters
- Aligning content types to funnel stages (TOFU, MOFU, BOFU)
- Content formats: blog, video, podcast, carousel, newsletter, case study
- Setting content goals and KPIs (traffic, engagement, leads, shares)
- Building an editorial calendar
- Content audits and gap analysis
- Content briefs and creative briefs for writers/designers

2.2 Copywriting Frameworks

- AIDA, PAS (Problem-Agitate-Solution), and BAB (Before-After-Bridge)
- The 4 U's: Urgent, Unique, Useful, Ultra-specific
- Writing compelling headlines and hooks
- Features vs benefits and how to translate them
- Writing calls-to-action that convert
- Objection-handling copy techniques
- Voice and tone matching for different brands
- Editing copy for clarity, brevity, and rhythm

2.3 Storytelling & Brand Narrative

- The hero's journey applied to brand storytelling
- Customer-as-hero narrative structure
- Using case studies and testimonials as story assets
- Emotional triggers in marketing copy
- Data storytelling: turning numbers into narrative
- Building a brand story document

2.4 Blog & Long-Form Content Production

- Keyword-informed blog outlining
- Writing SEO-friendly introductions and subheadings
- Formatting for readability: bullet points, short paragraphs, visuals
- Internal linking strategy within articles
- Editing workflows: self-edit, peer review, style guides
- Publishing checklists (meta title, meta description, alt text)

2.5 Content Repurposing & Workflow

- Turning one blog post into 10+ pieces of content
- Repurposing long-form video into shorts, quotes, and carousels
- Batch content creation systems
- Content calendars and scheduling tools (Notion, Trello, Buffer)
- Working with freelance writers and designers
- AI-assisted content drafting workflows

HANDS-ON EXERCISES

- Rewrite 5 weak headlines into high-converting ones
- Write a PAS-framework ad copy for a real product
- Draft a 1200-word SEO blog outline with headers
- Repurpose one blog post into 5 social media posts

ASSIGNMENTS

- Submit a 4-week content calendar with pillars and formats mapped to funnel stages
- Write and submit 3 pieces of copy: a landing page hero, an email, and an ad

PROJECTS

- Full Content Strategy & Copywriting Portfolio for the capstone brand

WEEKLY LEARNING OUTCOMES

- Can build a structured content strategy and calendar
- Writes persuasive copy using proven frameworks
- Understands storytelling as a conversion tool
- Can repurpose content efficiently across channels

WEEKLY ASSESSMENT

Portfolio review of copy samples and content calendar graded on strategy alignment and persuasive quality

Social Media Strategy & Short-Form Video

Develop platform-specific strategies for Instagram, TikTok, X, LinkedIn, and YouTube, with hands-on short-form video production and editing.

LEARNING OBJECTIVES

- Build platform-specific content strategies for 5 major social networks
- Understand algorithm mechanics and engagement signals per platform
- Script, shoot, and edit short-form video content
- Grow an audience organically using proven content formats
- Manage a social media content calendar end to end

DETAILED TOPIC BREAKDOWN

3.1 Platform Strategy: Instagram & TikTok

Instagram algorithm signals: reels, carousels, stories, saves, shares TikTok algorithm and the For You Page mechanics

Content pillars for Instagram and TikTok growth Hook writing for the first 3 seconds of video Trends, sounds, and audio strategy

Hashtag and caption strategy Posting cadence and optimal timing Instagram Reels vs TikTok content differences

3.2 Platform Strategy: X, LinkedIn & YouTube

X (Twitter) growth: threads, replies, and engagement farming ethics LinkedIn algorithm and B2B content strategy

Writing LinkedIn posts that drive engagement and leads YouTube Shorts vs long-form strategy

YouTube SEO: titles, thumbnails, descriptions, tags Building a personal brand across platforms

Cross-platform content adaptation strategy

3.3 Short-Form Video Production

Scripting short-form videos with hook-body-CTA structure Filming on a smartphone: lighting, framing, audio basics

B-roll and visual storytelling techniques Editing in CapCut: cuts, captions, transitions, pacing

Adding trending sounds and text overlays Thumbnail and cover design for videos Batch filming and content pipelines

3.4 Community Management & Engagement

Responding to comments and DMs to build community Engagement pods and authentic engagement strategies

Handling negative comments and PR moments Building a content engagement loop Social listening for community insight

User-generated content campaigns

3.5 Social Media Analytics & Growth Tracking

Key metrics: reach, impressions, engagement rate, follower growth Native analytics tools per platform

Using third-party tools like Metricool and Later A/B testing content formats and hooks

Building a weekly social performance report

HANDS-ON EXERCISES

- Write 5 scroll-stopping hooks for short-form video
- Script and storyboard a 30-second Reel/TikTok
- Film and edit one short-form video using CapCut
- Write 3 LinkedIn posts for a B2B brand

ASSIGNMENTS

- Produce and publish 3 short-form videos with a documented content strategy
- Submit a 2-week social media content calendar across 3 platforms

PROJECTS

- Multi-Platform Social Media Content Campaign with 5+ produced assets

WEEKLY LEARNING OUTCOMES

- Can plan platform-specific social strategies
- Can script, film, and edit short-form video content
- Understands engagement mechanics and community management
- Can track and report on social performance metrics

WEEKLY ASSESSMENT

Video and campaign deliverables graded on production quality, strategy, and platform fit

Search Engine Optimization (SEO)

Deep dive into technical, on-page, and off-page SEO, keyword research, and using GA4 and Search Console to drive organic growth.

LEARNING OBJECTIVES

- Perform comprehensive keyword research and search intent mapping
- Optimize on-page elements for search visibility
- Audit and fix technical SEO issues
- Build a link-building and off-page SEO strategy
- Use GA4 and Search Console to monitor organic performance

DETAILED TOPIC BREAKDOWN

4.1 SEO Foundations & Search Intent

How search engines crawl, index, and rank pages Types of search intent: informational, navigational, transactional, commercial

SERP features: featured snippets, People Also Ask, local pack E-E-A-T (Experience, Expertise, Authoritativeness, Trustworthiness)

Core Web Vitals and ranking factors overview SEO vs SEM: when to use each

4.2 Keyword Research

Using Google Keyword Planner, Ahrefs, and Ubersuggest Head terms vs long-tail keywords

Search volume, keyword difficulty, and CPC interpretation Building keyword clusters and topic maps

Competitor keyword gap analysis Mapping keywords to funnel stages and page types

4.3 On-Page SEO

Title tag and meta description optimization Header tag structure (H1-H3) and keyword placement URL structure best practices

Internal linking strategy and anchor text Image optimization: alt text, compression, file naming

Content optimization for target keywords without stuffing Schema markup basics for rich results

4.4 Technical SEO

Site speed and Core Web Vitals optimization Mobile-friendliness and responsive design checks

XML sitemaps and robots.txt configuration Crawl budget and indexation issues Fixing 404s, redirects, and duplicate content

Running a technical SEO audit with Screaming Frog HTTPS, canonical tags, and structured data validation

4.5 Off-Page SEO & Link Building

Backlink quality signals: authority, relevance, anchor text Guest posting and outreach strategies

Digital PR and HARO for link acquisition Broken link building tactics Local SEO and Google Business Profile optimization

Analyzing backlink profiles with Ahrefs

4.6 Measuring SEO with GA4 & Search Console

Setting up GA4 properties and data streams

Understanding GA4 events, conversions, and engagement metrics

Connecting Search Console to monitor queries and impressions

Tracking organic traffic trends and keyword rankings

Building an SEO performance dashboard

Diagnosing traffic drops using GA4 and Search Console data

HANDS-ON EXERCISES

- Perform keyword research and build a 20-keyword cluster for a niche site
- Run a technical SEO audit on a live website using Screaming Frog
- Optimize on-page elements for a sample blog post
- Set up a GA4 property and configure key events

ASSIGNMENTS

- Submit a full SEO audit report (technical, on-page, off-page) for a real website
- Build a 3-month keyword-mapped content plan for the capstone brand

PROJECTS

- Complete SEO Audit & Optimization Plan with GA4/Search Console setup

WEEKLY LEARNING OUTCOMES

- Can perform keyword research and search intent mapping
- Can audit and fix on-page and technical SEO issues
- Understands off-page and link-building strategy
- Can configure and interpret GA4 and Search Console data

WEEKLY ASSESSMENT

SEO audit report graded on completeness, accuracy, and actionability of recommendations

Paid Advertising: Meta, Google & TikTok Ads

Build, launch, and optimize paid campaigns across Meta Ads, Google Ads, and TikTok Ads, mastering targeting, creative testing, budgeting, and ROAS optimization.

LEARNING OBJECTIVES

- Set up and structure campaigns in Meta Ads Manager, Google Ads, and TikTok Ads
- Build targeting strategies using demographics, interests, and lookalikes
- Design and test ad creatives for performance
- Manage budgets, bidding strategies, and scaling decisions
- Calculate and optimize for ROAS and CPA

DETAILED TOPIC BREAKDOWN

5.1 Paid Media Fundamentals

- How ad auctions work across platforms
- Key metrics: CPM, CPC, CTR, CPA, ROAS, frequency
- Campaign structure: campaign, ad set/group, ad level
- Funnel-based campaign objectives (awareness, consideration, conversion)
- Budgeting models: daily vs lifetime, CBO vs ABO
- Attribution windows and their impact on reporting

5.2 Meta Ads (Facebook & Instagram)

- Meta Ads Manager interface and campaign setup
- Meta Pixel and Conversions API installation
- Audience targeting: core, custom, and lookalike audiences
- Advantage+ campaigns and broad targeting strategies
- Ad formats: single image, carousel, video, collection
- Creative testing frameworks (hook, angle, format variations)
- Retargeting funnels and dynamic product ads
- Reading Meta Ads reporting and diagnosing underperformance

5.3 Google Ads

- Google Ads account structure: campaigns, ad groups, keywords
- Search campaigns: match types, negative keywords, quality score
- Google Display Network and remarketing campaigns
- Performance Max campaigns overview
- YouTube ads within Google Ads
- Writing high-CTR search ad copy with extensions
- Conversion tracking setup with Google Tag Manager

5.4 TikTok Ads & Emerging Platforms

- TikTok Ads Manager setup and campaign objectives
- Spark Ads and organic-style creative strategy
- TikTok audience targeting and Smart Targeting
- Creative best practices for native-feeling TikTok ads
- Overview of Pinterest and Snapchat ads for niche audiences

5.5 Creative Testing & Budget Optimization

- Building a creative testing matrix (hooks x formats x angles)
- Statistical significance basics for A/B testing ads
- Scaling winning ads: vertical vs horizontal scaling
- Budget allocation across funnel stages
- Calculating breakeven ROAS and target CPA
- Killing underperforming ads: decision frameworks

HANDS-ON EXERCISES

- Set up a full Meta Ads campaign structure in a test ad account
- Write 5 ad variations for an A/B creative test
- Build a Google Search campaign with keyword match types and negatives
- Calculate ROAS and CPA targets for a sample budget

ASSIGNMENTS

- Submit a complete paid media plan across Meta, Google, and TikTok for the capstone brand
- Produce a creative testing matrix with 6 ad variations and rationale

PROJECTS

- Multi-Platform Paid Ads Campaign Plan with budgets, targeting, and creatives

WEEKLY LEARNING OUTCOMES

- Can structure and launch campaigns on Meta, Google, and TikTok Ads
- Can build targeting strategies and lookalike audiences
- Can design and test ad creatives systematically
- Can manage budgets and optimize toward ROAS/CPA goals

WEEKLY ASSESSMENT

Paid media plan graded on targeting logic, budget allocation, and creative strategy rigor

Email Marketing, Funnels, Landing Pages & CRO

Design full-funnel email sequences, high-converting landing pages, and apply conversion rate optimization principles to maximize revenue from existing traffic.

LEARNING OBJECTIVES

- Build automated email funnels for acquisition and retention
- Write high-converting email sequences and subject lines
- Design landing pages using conversion-focused structure
- Apply A/B testing and CRO methodology
- Set up marketing automation workflows

DETAILED TOPIC BREAKDOWN

6.1 Email Marketing Fundamentals

- Email marketing platforms overview (Mailchimp, Klaviyo, ConvertKit)
- List building strategies and lead magnets
- Email deliverability: SPF, DKIM, DMARC basics
- Segmentation strategies for personalized email
- Subject line and preview text optimization
- Email design best practices for mobile and desktop

6.2 Funnel Design & Automation

- Welcome sequences and onboarding flows
- Abandoned cart and browse abandonment flows
- Post-purchase and win-back sequences
- Nurture sequences for long sales cycles
- Building automation workflows with triggers and conditions
- Mapping funnels to the customer journey from Week 1

6.3 Landing Page Design

- Anatomy of a high-converting landing page
- Above-the-fold messaging and hero sections
- Social proof placement: testimonials, logos, reviews
- Building landing pages with tools like Unbounce, Framer, or Webflow
- Form design and reducing friction
- Mobile-first landing page principles

6.4 Conversion Rate Optimization (CRO)

- The CRO process: hypothesis, test, measure, iterate
- A/B testing tools and statistical significance
- Heatmaps and session recordings with Hotjar/Microsoft Clarity
- Identifying friction points in funnels
- Pricing page and checkout optimization
- Building a CRO backlog and prioritization framework (ICE/PIE)

6.5 Marketing Automation & CRM Basics

- Connecting email tools to CRMs (HubSpot basics)
- Lead scoring fundamentals
- Tagging and segmentation logic in automation platforms
- Reporting on funnel and email performance (open rate, CTR, revenue per email)

HANDS-ON EXERCISES

- Write a 5-email welcome sequence for a fictional brand
- Design a landing page wireframe with CRO principles applied
- Set up an abandoned cart flow in a chosen email platform
- Run a mock A/B test hypothesis using the ICE framework

ASSIGNMENTS

- Build and submit a complete email funnel (welcome + nurture + abandoned cart) for the capstone brand
- Design and submit a landing page mockup with a documented CRO rationale

WEEKLY LEARNING OUTCOMES

- Can design and build automated email funnels
- Can write high-converting email copy and subject lines
- Can design conversion-focused landing pages
- Understands and applies CRO testing methodology

WEEKLY ASSESSMENT

Funnel and landing page deliverables graded on conversion logic, copywriting, and design clarity

PROJECTS

- End-to-End Funnel: Landing Page + Email Automation Sequence

Influencer & Community Marketing, Analytics, Attribution & AI Tools

Learn to run influencer campaigns, build community-led growth, master analytics and attribution modeling, and integrate AI tools into marketing workflows.

LEARNING OBJECTIVES

- Plan and execute an influencer marketing campaign
- Design a community-led growth strategy
- Build multi-channel analytics dashboards and attribution models
- Apply AI tools across research, content, and analysis workflows
- Interpret data to make strategic marketing decisions

DETAILED TOPIC BREAKDOWN

7.1 Influencer Marketing

Types of influencers: nano, micro, macro, celebrity Influencer discovery and vetting tools
 Negotiating rates and contracts with creators Briefing influencers for authentic content
 UGC (user-generated content) licensing and whitelisting/Spark Ads Measuring influencer campaign ROI

7.2 Community Marketing & Growth

Building brand communities on Discord, Slack, and Circle Community-led growth vs traditional acquisition
 Ambassador and referral program design Facilitating engagement and moderating communities
 Measuring community health metrics

7.3 Marketing Analytics & Dashboards

Building cross-channel dashboards with Looker Studio Connecting GA4, ad platforms, and CRM data
 Defining and tracking North Star metrics Cohort analysis and retention curves
 Reporting cadences: weekly, monthly, quarterly reviews

7.4 Attribution Modeling

First-touch vs last-touch vs multi-touch attribution Linear, time-decay, and position-based attribution models
 Challenges of attribution in a cookieless, privacy-first world Media mix modeling basics
 Using UTM parameters correctly across all campaigns

7.5 AI Tools for Marketers

Using ChatGPT and Claude for content ideation and drafting AI image and video generation tools for creative production
 AI-assisted keyword research and SEO content briefs AI ad copy generation and creative variation tools
 AI-powered analytics summarization and insight generation Building custom GPTs/prompts for repeatable marketing workflows
 Ethical and quality-control considerations when using AI content

HANDS-ON EXERCISES

- Draft an influencer brief and outreach message for a micro-influencer campaign
- Build a Looker Studio dashboard pulling GA4 and ad platform data
- Compare attribution results using two different attribution models
- Use an AI tool to generate and refine a full content brief

ASSIGNMENTS

- Submit an influencer campaign plan with budget, briefs, and KPIs
- Submit a cross-channel analytics dashboard with attribution notes for the capstone brand

PROJECTS

- Influencer Campaign Plan + Analytics Dashboard with Attribution Model

WEEKLY LEARNING OUTCOMES

- Can plan and manage influencer and community marketing campaigns
- Can build cross-channel analytics dashboards
- Understands attribution models and their tradeoffs
- Can integrate AI tools into daily marketing workflows

WEEKLY ASSESSMENT

Dashboard and influencer plan graded on data accuracy, strategic insight, and AI-tool integration

Agency Business, Freelancing & Capstone Go-To-Market Campaign

Learn how to package and sell digital marketing services as a freelancer or agency, then plan, build, and present a complete go-to-market campaign as your capstone.

LEARNING OBJECTIVES

- Understand the business models of freelancing vs running an agency
- Package services, price offers, and pitch clients
- Build a personal brand and portfolio to win clients
- Synthesize all prior weeks into one full go-to-market campaign
- Present a complete, data-backed marketing strategy to stakeholders

DETAILED TOPIC BREAKDOWN

8.1 Freelancing as a Digital Marketer

- Choosing a niche and service offer
- Building a portfolio with no prior clients
- Pricing models: hourly, project-based, retainer, performance-based
- Finding clients: cold outreach, referrals, freelance platforms, content marketing
- Writing proposals and contracts
- Managing client communication and expectations

8.2 Building & Running an Agency

- Agency business models: full-service vs specialized
- Team structure and hiring for an early-stage agency
- Productizing services into packages
- Client onboarding and reporting systems
- Scaling operations with tools and SOPs
- Common agency pitfalls and how to avoid them

8.3 Personal Branding & Sales

- Building an authority-driven personal brand on LinkedIn/X
- Creating case studies that sell your work
- Sales call structure for service-based marketing offers
- Handling objections and pricing conversations
- Building a lead-generation system for your own services

8.4 Capstone Strategy Development

- Synthesizing positioning, ICP, and journey mapping into one strategy
- Selecting the optimal channel mix for the chosen business
- Building the full campaign brief: goals, KPIs, budget, timeline
- Integrating content, social, SEO, paid, email, and CRO components
- Building the measurement and reporting plan

8.5 Capstone Build & Presentation

- Assembling all campaign assets into one deliverable
- Building a stakeholder-ready presentation deck
- Rehearsing and delivering a campaign pitch
- Incorporating feedback and revising the strategy
- Publishing the capstone as a portfolio case study

HANDS-ON EXERCISES

- Draft a freelance service package with 3 pricing tiers
- Write a cold outreach message and a client proposal template
- Build a one-page capstone campaign brief
- Practice pitching the capstone campaign to a peer for feedback

ASSIGNMENTS

- Submit a freelance/agency positioning and pricing package for your own services
- Submit the full capstone go-to-market campaign document and presentation deck

PROJECTS

- Capstone: Full Go-To-Market Campaign combining positioning, content, social, SEO, paid ads, email, and analytics

WEEKLY LEARNING OUTCOMES

- Can package, price, and pitch digital marketing services
- Understands agency and freelance business models
- Can synthesize the full marketing stack into one coherent strategy
- Can confidently present a complete marketing campaign to stakeholders

WEEKLY ASSESSMENT

Capstone go-to-market campaign graded on strategic coherence, execution detail, and presentation quality
